Product Description

The ZKManet2971 is a portable command box featuring three screens, specifically designed for on-site command operations. It combines MESH self-organizing networks, 5G public networks, Wi-Fi, and wired connections to integrate various services such as voice, video, location tracking, and data information at the incident site. With a unified presentation and management system, it offers a three-screen display function that enhances command visualization. Additionally, it allows for screen projection to the large display systems of the front command department and facilitates communication with the rear command center for effective upward and downward communication.

Features

* Portable case design

* Triple HD screen design

* Supports multiple HDMI outputs simultaneously

* Support external MIC, headset

* support a variety of voice input and output options

* Support MESH network, public network 4G/5G, Wi-Fi, wired network and other links access
