## Product Description

### 1W COFDM AES Handheld 10.1 Inch Radio Vido Data Receiver with Memory TF Card

#### Product Description

The ZKManet1102R is a completely portable handheld COFDM HD video receiver. Its lightweight and compact design, powered by batteries, makes it ideal for users seeking a discreet and fully mobile surveillance solution. The smart design minimizes setup time while ensuring dependable reception of both video and audio in non-line-of-sight (NLOS) conditions. Users can enhance the range by choosing different reception modes, booster amplifiers, and antenna types. Additionally, the unit can be paired with various antennas and RF accessories to extend its range even further.

#### Features

- \* Support 300MHz-2.7GHz customization
- \* Portable design for easy operation
- \* 10.1 inch high brightness HD display
- \* Receiving signal under high-speed and NLOS conditions
- \* With AV output for connecting to external large display
- \* AES256 encryption
- \* Built-in battery up to 4 hours endurance
- \* Compact size and light weight

Company Profile

Zhongke Lianxun (Shenzhen) Technology Co., Ltd. was established in 2005. We focus on the research and development of products for drone defense/control, wireless video transmission, and network security encryption/decryption. With excellent quality and advanced technology, we provide comprehensive network communication solutions to our customers.

Our chief scientist team, led by professors from the Network Security Institute of Wuhan University, has achieved remarkable results in the development of man-in-the-middle platforms for network security. The company currently offers platforms such as a drone denial system platform, long-distance wireless video transmission platform for drones, network encrypted data analysis platform, IPSEC man-in-the-middle platform, and SSH man-in-the-middle analysis platform.

We provide design and development services for internet big data collection and analysis products and application solutions to large enterprises and institutions with confidentiality needs. Additionally, we offer sales of network security equipment and information security technical services. Our products are widely used by law enforcement forces and government departments such as public security, armed police, forest fire prevention, civil air defense, and maritime affairs.
