

Enhanced Security Drone Data Link with AES 128/256-bit Encryption and 12V DC Power Supply

Our Product Introduction

for more products please visit us on zkmanet.com

Basic Information

- Place of Origin: Shenzhen
- Brand Name: ZKMANET
- Certification: CE
- Model Number: ZKMANET2441UM
- Minimum Order Quantity: 1
- Price: 800
- Packaging Details: Carton
- Delivery Time: 15days
- Payment Terms: TT, L/C, D/A, D/P, Western Union, MoneyGram
- Supply Ability: 10000pcs/year

Product Specification

- Encryption: AES 128/256-bit
- Power Supply: 12V DC
- Output Power: 2w
- Transmission Range: Up To 15 Km
- Frequency Band: 800MHz/1.4GHz/2.4 GHz
- Weight: 450g
- Transmission Range: 10-30km
- Size: 113*84*38mm
- Highlight: Enhanced Security Drone Data Link, 256-bit Encryption Drone Data Link

Product Description

Product Description:

Equipped with a robust data port that supports a variety of protocols, the Drone Data Link allows you to connect your drone to a range of devices, including laptops, tablets, and smartphones, giving you complete control over your drone operations.

Designed for use with anti-drone systems, the Drone Data Link is an essential component of any drone defense system. With its advanced encryption technology, which includes AES 128/256-bit encryption, you can rest assured that your drone operations are protected from unauthorized access and interference.

Compact and lightweight, the Drone Data Link is easy to install and transport. With dimensions of 113*84*38mm, this data link system can be easily mounted on your drone or carried in your backpack, making it an essential tool for any drone operator.

With a transmission range of 10-30km, the Drone Data Link is ideal for a wide range of drone applications, including aerial surveys, inspections, and search and rescue operations. Whether you're working in remote areas or in densely populated urban environments, this data link system provides reliable communication and data transmission, ensuring that you stay connected to your drone at all times.

In summary, the Drone Data Link is a highly advanced drone video transmitter that provides exceptional performance and range for your commercial drone UAV. With its robust data port, advanced encryption technology, and compact size, this data link system is an essential tool for any drone operator. Whether you're working in drone defense or conducting aerial surveys, the Drone Data Link offers reliable communication and data transmission, ensuring that you get the job done right.

Features:

Product Name: Drone Data Link

Size: 113*84*38mm

Frequency Band: 800MHz/1.4GHz/2.4 GHz

Weight: 450g

Transmission Range: Up To 15 Km

Data Rate: Up To 30 Mbps

Drone Detection Device

Anti Drone System

Anti Drone System

Technical Parameters:

Weight	450g
Power Supply	12V DC
Output power	2w
Data Rate	Up To 30 Mbps
Transmission range	10-30km
Size	113*84*38mm
Frequency Band	800MHz/1.4GHz/2.4 GHz
Type	Data Link System
Data port	Support
Transmission Range	Up To 15 Km

This product is a Data Link System with Anti Drone System, Anti Drone System, and Drone Detection Device features.

Applications:

The ZKMANET2441UM Drone Wireless Video Transmitter is an ideal choice for various occasions and scenarios where drones are required to fly for an extended period of time. The product has a transmission range of up to 15 Km, which makes it suitable for long-distance data transfer. The device's data port supports a wide range of data formats, making it compatible with different types of drones. The ZKMANET2441UM Drone Wireless Video Transmitter is designed to provide stable and reliable performance, ensuring that the data transmission is smooth and uninterrupted. It is a perfect solution for various applications, including the anti-drone system. The device's small size (113*84*38mm) makes it easy to install in a drone, while its 12V DC power supply ensures that it can be powered by the drone's battery.

The ZKMANET2441UM Drone Wireless Video Transmitter is an excellent choice for individuals and organizations that require a reliable and efficient data link system. It is an ideal product for drone enthusiasts, photographers, videographers, and cinematographers who need to transmit high-quality video and image data from their drones.

Customization:

Product Name: Drone Data Link
Brand Name: ZKMANET
Model Number: ZKMANET2441UM
Place of Origin: Shenzhen
Certification: CE
Minimum Order Quantity: 1
Price: \$800
Packaging Details: Carton
Delivery Time: 15 days
Payment Terms: TT
Supply Ability: 10000pcs/year
Frequency Band: 800MHz/1.4GHz/2.4 GHz
Output power: 2w
Transmission range: 10-30km
Data port: Support
Weight: 450g

Product Description: The Drone Data Link is a high-performance drone wireless video transmitter designed for long-range transmission. With a transmission range of up to 30km, it is perfect for use in anti-drone systems. Its compact and lightweight design makes it easy to install and operate. The device supports data port and operates on a frequency band of 800MHz/1.4GHz/2.4 GHz. The output power is 2w, making it ideal for long-range transmission. The product is certified with CE and has a minimum order quantity of 1. The product is priced at \$800 and is packed in a carton. The delivery time is 15 days and payment terms are TT. The product has a supply ability of 10000pcs/year.

Support and Services:

The Drone Data Link product comes with comprehensive technical support and services, including:

- Product installation and setup assistance
- Remote troubleshooting and issue resolution
- Software updates and maintenance
- Access to user manuals and documentation
- Training and educational resources

Our team of knowledgeable experts is available to provide timely and effective assistance to ensure that your Drone Data Link product performs at its best and meets your specific needs.

Packing and Shipping:

Product Packaging:
The Drone Data Link product will be packed in a sturdy cardboard box to ensure safe delivery. The box will be filled with protective cushioning material to prevent any damage during shipping.

Shipping:

We offer free shipping for the Drone Data Link product within the United States. For international shipping, standard shipping rates will apply. The product will be shipped within 2 business days of receiving the order and will be delivered within 5-7 business days for domestic orders and 10-14 business days for international orders.

FAQ:

- Q:** What is the brand name of the drone data link product?
A: The brand name of the drone data link product is ZKMANET.
- Q:** What is the model number of the drone data link product?
A: The model number of the drone data link product is ZKMANET2441UM.
- Q:** Where is the drone data link product manufactured?
A: The drone data link product is manufactured in Shenzhen.
- Q:** Is the drone data link product certified?
A: Yes, the drone data link product is certified with CE.
- Q:** What is the minimum order quantity for the drone data link product?
A: The minimum order quantity for the drone data link product is 1.
- Q:** What is the price of the drone data link product?
A: The price of the drone data link product is \$800.
- Q:** What is the packaging details of the drone data link product?
A: The packaging details of the drone data link product is carton.
- Q:** What is the delivery time for the drone data link product?
A: The delivery time for the drone data link product is 15 days.
- Q:** What are the payment terms for the drone data link product?
A: The payment terms for the drone data link product are TT.
- Q:** What is the supply ability of the drone data link product?
A: The supply ability of the drone data link product is 10000pcs/year.
