Compact 12V DC Drone Video Transmitter with AES Encryption for 800/1.4/2.4GHz Secure Video Transmission Advanced Technology

Basic Information

- Place of Origin: Shenzhen
- Brand Name: ZKMANET
- Certification: CE
- Model Number: ZKMANET2441UM
- Minimum Order Quantity: 1
- Price: 800
- Packaging Details: Carton
- Delivery Time: 15days
- Payment Terms: TT, L/C, D/A, D/P, Western Union, MoneyGram
- Supply Ability: 10000pcs/year

Product Specification

- Power Supply: 12V DC
- Transmission Range: Up To 15 Km
- Size: 113*84*38mm
- Frequency Band: 800MHz/1.4GHz/2.4 GHz
- Weight: 450g
- Transmission Range: 10-30km
- Encryption: AES 128/256-bit
- Type: Data Link System
- Highlight: **12V DC Drone Video Transmitter**, **AES Encryption Drone Video Transmitter**, **2.4GHz Drone Video Transmitter**

Product Description

Product Description:

With a transmission range of up to 15 Km, the Drone Data Link provides reliable and stable communication between your drone and ground station. This allows you to fly your drone further and gather more data from remote locations.

The Drone Data Link is powered by a 12V DC power supply, ensuring that you have a reliable power source for your drone operations. Its compact and lightweight design, weighing only 450g, makes it easy to carry and install on your drone.

Whether you are using the Drone Data Link as part of an anti-drone system or for drone wireless video transmitter purposes, you can be sure that it will meet your needs. Its transmission range of 10-30km makes it highly versatile and able to adapt to a wide range of drone operations.

In summary, the Drone Data Link is a highly reliable and secure drone video transmitter that provides advanced encryption technology, a long transmission range, a reliable power supply, and a lightweight design. It is the perfect choice for professional drone operators looking for a top-of-the-line drone data link solution.

Features:

Product Name: Drone Data Link
Transmission Range: Up To 15 Km
Type: Data Link System
Size: 113*84*38mm
Data port: Support
Designed for Commercial Drone UAV
Can be used as a Drone Video Transmitter
Works as part of an Anti Drone System

Technical Parameters:

Product Attribute	Value
Type	Data Link System
Transmission Range	10-30km
Frequency Band	800MHz/1.4GHz/2.4 GHz
Weight	450g
Size	113*84*38mm
Output Power	2w
Power Supply	12V DC
Data Port	Support
Transmission Range	Up To 15 Km
Data Rate	Up To 30 Mbps

Applications:

ZKMANET2441UM is a data link system for commercial drone UAV which is manufactured in Shenzhen and certified with CE. This product comes with a minimum order quantity of 1 and costs $800. It is packed in a carton and has a delivery time of 15 days. Payment can be made through TT and the supply ability of this product is 10000pcs/year.

The ZKMANET3622 is designed to operate in the frequency band of 800MHz/1.4GHz/2.4 GHz and provides AES 128/256-bit encryption for secure transmission of data. With a transmission range of 10-30km, this drone data link system is perfect for commercial drone UAV operations. It is highly reliable and provides excellent connectivity with the drone.

Commercial drone UAV operators can use the ZKMANET3622 for a wide range of applications such as aerial photography, surveying, mapping, and inspection. The device is also suitable for drone detection and can be used in scenarios where unauthorized drones need to be detected and tracked.

The ZKMANET3622 is easy to install and use, and comes with a power supply of 12V DC. Whether you are a professional drone operator or a hobbyist, this data link system is an essential tool for your drone operations. So order now and experience the benefits of this reliable and secure drone data link system.

Support and Services:

The Drone Data Link product provides the following technical support and services:
Assistance with initial setup and installation of the product
Troubleshooting and resolution of technical issues
Software updates and upgrades to improve product functionality
Consultation services to ensure optimal performance and integration with other drone hardware and software
Training and education resources for users and operators
Warranty and repair services for any product defects or malfunctions

Packing and Shipping:

Product Packaging:
One Drone Data Link device
One set of antennas
One power cable
User manual
Product warranty card
Shipping:
Ships within 1-2 business days
Ships via standard ground service
Shipping cost based on destination and weight
Tracking information provided via email

FAQ:

Q: What is the brand name of the drone data link product?
A: The brand name is ZKMANET.
Q: What is the model number of the drone data link product?
A: The model number is ZKMANET2441UM.
Q: Where is the drone data link product manufactured?
A: The product is manufactured in Shenzhen.
Q: Has this drone data link product been certified?
A: Yes, it has been certified with the CE mark.
Q: What is the minimum order quantity for this drone data link product?
A: The minimum order quantity is 1.
Q: What is the price of the drone data link product?
A: The price is $800.
Q: What are the packaging details for the drone data link product?
A: The packaging details are carton.
Q: What is the delivery time for the drone data link product?
A: The delivery time is 15 days.
Q: What are the payment terms for the drone data link product?
A: The payment terms are TT.
Q: What is the supply ability of the drone data link product per year?
A: The supply ability is 10,000 pcs/year.
